Project Acknowledge

eProject is a step-by-step learning environment that closely simulates the classroom and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to

- + Practice step by step i.e. ladder approach.
- + Build a larger more robust application.
- + Usage of certain utilities in applications designed by user.
- + Single program to unified code leading to a complete application.
- + Learn implementation of concepts in a phased manner.
- + Enhance skills and add value.
- + Work on real life projects.
- + Give a real life scenario and help to create applications more complicated and useful.
- + Mentoring through email support.

Objectives of the project

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application.

The objective is not to teach you JavaScript/Dreamweaver but to provide you with a real life scenario and help you create basic applications using the tools.

You can revise the chapters before you start with the project.

This project is meant for students who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given.

Kindly get back @ eprojects@aptech.ac.in in case of any doubts regarding the application or its objectives.

Synopsis

Shale-PIZZAAsss is famous for Pizzas, Pasta food. Shale-PIZZAAsss was opened with one restaurant in the year 1960 and now it has more than 1000 restaurant across the countries. A website needs to be designed must display the menus, Contact Us (so as to call a make order). Details of various franchise, locations, feedback must be included.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

Design Plan: Shale-PIZZAAAss	Document Name: Problem Definition	SWD/Form No.1/PD/Ver1.0
Effective Date: 09/07/2020	Version 1.0	Page No: 4 of 18

Problem Definition

Shale-PIZZAAAss is famous for pizza, Pasta food. Shale-PIZZAAAss was opened with a restaurant in 1960 and now it has more than 1000 restaurants across the country. They need a website for customers to place orders and partners to contact.

Request:

- + Display menu
- + Contact us (to order).
- + Details about different franchises.
- + Location.
- + Feedback must be included.

Functional Descriptions

The website will be created based on the following model.

- 1) Home Page must display the image section of the website.
- 2) Links such as
 - Home
 - Menu
 - i. Pizza
 - ii. Garlic Breads
 - iii. Pizza Sandwiches
 - iv. Desserts
 - v. Beverages
 - Menu Download
 - Store Location
 - Locations
 - Feedback
 - Franchise Info
